

INTERNAL IT VS. CO-MANAGED IT WHAT'S THE DIFFERENCE?

See how co-managed IT services from CorSystems can fill the gaps, boost resilience, and support your team where it matters most.

INTERNAL IT ONLY		INTERNAL IT + CO-MANAGED IT
 Limited by staffing & on-call availability	 Cybersecurity Response Time	24/7 monitoring and rapid incident response 
 Generalists may lack niche skills (e.g. compliance, cloud)	 Access to Specialized Expertise	Immediate access to experts in compliance, cloud, security 
 Often reactive or delayed due to workload	 System Maintenance Frequency	Proactive, scheduled maintenance and updates 
 May struggle with evolving regulatory standards	 Compliance Knowledge	Ongoing support to meet standards like HIPAA, NIST 
 High cost to hire & retain specialists	 Cost-Effectiveness	Scalable support without the full-time overhead 

STRUGGLING TO COVER ALL YOUR IT BASES?
CORCSYSTEMS CAN HELP YOU SCALE SMARTER.
