

# TOP 4 IOT SECURITY RISKS IN HEALTHCARE ENVIRONMENTS

Where your connected care devices may be exposing your facility

## 01 UNMONITORED DEVICES

Smart pumps and monitors often fall outside routine oversight, especially via shadow IT.

## 02 WEAK ACCESS CONTROLS

Shared logins and default credentials increase breach risk.

## 03 FLAT NETWORKS

Without segmentation, one device compromise can spread fast.

## 04 OUTDATED FIRMWARE

Legacy tools frequently miss critical security updates.
